Government of Zimbabwe

Zimbabwe Energy Regulatory Authority

Ministry/Department/Agency (MDA)

Whole of Government Performance Management System Template

Period: 2025

Agency
ZERA

SECTION A: Profile of the Ministry/Department[1]/Agency (MDA)

1. **MDA:** ZERA **Code:**[2] N/A

2.a **MDA Vote Number:** N/A

2.b **Sector(s) Name(s):**[3] **Energy Regulation** **Code:** N/A

3. **MDA Vision Statement: "**Regulator that promotes universal access to sustainable energy by 2030".

4. **MDA Mission Statement: "**ZERA regulates the Zimbabwean energy market, cost effectively, through incentive regulation and in a fair and transparent manner to achieve sustainable energy".

5. **5**. a. **National Priority Areas that the MDA is Contributing to:**

	Description of NPA
NPA 1	Transport, Infrastructure & Utilities

5.b. **National Key Result Areas that the MDA is Contributing to:**

	Description of NKRA
NKRA 1	Provision of improved Infrastructure and services

5.c. **National Outcomes that the MDA is contributing to:**

	National Outcome

[1]MDA refers to an institution with a separate budget vote
[2]The codes are system generated although they can be manually prepared
[3]If MDA belongs to many Sectors, start with the ones allocated more resources and also with the highest contributions to results

NOUC 1	Improved infrastructure and access to services

5.d. **Sector Outcomes that the MDA is contributing to:**

	Sector Outcome
SOUC 1	Improved Service Delivery
SOUC 2	Improved Energy Supply Capacity
SOUC 3	Improved access to modern energy services
SOUC 4	Improved Energy Efficiency

5.e. **Key Contributing Partners**

NOUC. Ref. No.[4]	**SOUC. Ref. No.**	**Prog. Ref. No.**	**Contributing MDA**	**Other Contributors**
1	1	1	Ministry of Energy and Power Development, PRAZ, Ministry of Finance, SAZ, Ministry of Environment, ZRP, Auditor General, ZIMRA	Consultants, Banks, Suppliers
1	1	2	Attorney General, Ministry of Energy and Power Development, Ministry of Finance ZIMRA, RBZ, ZRP, NPA, EMA, Local Authorities, CAAZ, NOIC	Consumer Associations, Industry bodies, RERA, RAERESA, SAPP, AFUR
1	1	3	Ministry of Industry & Commerce, ZRP	CCZ, Residents Associations, Consumer Associations, CZI, Media, Commercial Arbitration Centre

6. **MDA Programmes and Outcomes**

Prog. Code	**Programme Name**	**Programme Outcome/s**
1	Governance and Administration	• Improved Governance and Administration.

[4] NOUC which the Ministry is contributing to

2	Energy Regulation	• Increased regulatory compliance. • Enhanced cost reflectivity of energy prices • Improved uptake of modern renewable energy and technological innovations • Increased energy efficiency
3	Stakeholder Engagement & Advisory Services	• Improved stakeholder satisfaction

7. Terms of Reference

a. Establishing Act:

Energy Regulatory Authority Act, 2011 [Chapter 13:23];

b. Other sources of power (authority)

1. Electricity Act, 2003 [Chapter 13:19]; and
2. Petroleum Act, 2006 [Chapter 13:22].

8. Policies Applicable for the MDA

	Title	Policy Code	Provision	Programme Code
1.	Constitution of Zimbabwe		Whole	1-3
2.	Vision 2030		Whole	1-3
3.	National Development Strategy 1 (NDS1)		Whole	1-3
4.	MOEPD Strategic Plan (2021-2025)		Whole	1-3
5.	National Energy Policy		Whole	1-3
6.	Biofuels Policy		Whole	1-3
7.	Gender Policy		Whole	1
8.	HIV Policy		Whole	1
9.	COMESA Model Energy Policy Framework 2008		Whole	2 & 3
10.	Environmental Protection Policy		Whole	2
11.	Guidelines on Regional Cross Border Trading		Whole	2
12.	National Monitoring and Evaluation Policy		Whole	1-3
13.	SADC Protocols on Energy		Whole	1-3
14.	Southern African Power Pool 1995 (SAPP) MOU		Whole	2 & 3
15.	Sustainable Development Goals			1-3
16.	Public Procurement and Disposal of Public Assets (General) Regulations, 2018 SI 5 of 2018;			1
17.	Public Finance Management Act [Chapter 22:19] 11 of 2009;		Whole	1
18.	Public Procurement and Disposal of Public Assets Act [Chapter 22:23];		Whole	1

	Title	Policy Code	Provision	Programme Code
19.	Public Entities and Corporate Governance Act [Chapter 10:31]		Whole	1
20.	Public Entities Corporate Governance Regulations, 2018 SI 168 of 2018;		Whole	1
21.	Labour Act [Chapter 28:01]		Whole	1
22.	Renewable Energy Policy		Whole	1-3
23.	Statutory Instrument 200 of 2020. [CAP. 15:17] Public Health (COVID-19 Prevention, Containment and Treatment) (National Lockdown) (Consolidation and Amendment) Order, 2020		Whole	1-3
24.	Public Health Act [Chapter 15:17]		Whole	1-3
25.	Climate Change Policy		Whole	1-3

SECTION B: PERFORMANCE FRAMEWORK FOR THE MDA

9. Programme Performance Framework

9.a. Programme Outcome Linkages

	Preliminary Outcome Statement	Policy Code/s	Contribution		NPA Reference/s	National KRA Reference/s	National Outcome Reference/s
			Partner/s	Description			
MDA Programme (AP) 1: **Governance and Administration**							
OUC1	Improved Governance and Administration		MoEPD, PRAZ MoFEDIP, SAZ ZRP, AG, ZIMRA, OPC, OAG, MoPSLSD, NPA	Advisory, Oversight, Cooperation,	1	1	1
MDA Programme (AP) 2: **Energy Regulation**							
OUC 2	Increased regulatory compliance		AG, MoEPD, MoECT MoFEDIP, ZIMRA, RBZ, ZRP, NPA, EMA, RPA Local Authorities, SAZ, CAAZ, CTC, Min of Industry and Commerce, CCZ, NSSA, Min of Transport, MIAZ, REAZ	Legislative drafting, Policy direction, Border control, verification of imported energy products, Law enforcement, Prosecution Environmental impact assessment, Siting of energy projects, Fire prevention, Approval Cooperation	1	1	1
OUC 3	Enhanced cost reflectivity of energy prices						
OUC 4	Improved uptake of modern renewable energy and technological innovations						

	Preliminary Outcome Statement	Policy Code/s	Contribution		NPA Reference/s	National KRA Reference/s	National Outcome Reference/s
			Partner/s	Description			
OUC 5	Increased energy efficiency						
MDA Programme (AP) 3**: Stakeholder Engagement and Advisory Services**							
OUC6	Improved stakeholder satisfaction		CCZ, Residents Associations, MoIC, Media, CPC, (NACORA), CZI, ZNCC, CRAZ, COMZ, REAZ, IPAZ, MIAZ, PROBAZ, Farmer's Unions, MOMC, IPGZ, LPGSAZ, Parliament & Licensees.	Consumer Education & Awareness Publicity Consultation Advisory Resolution of public complaints	1	1	1

13. Outcomes and Impact Analysis

No.	Outcome / Impact Description	Ref. to Outcome (OUC):	Cross-Linkages			Linkage to Sector/ National Outcomes
			Shared Outcome/s	Contributing Entity	Contribution	
	Programme 1: Governance and Administration					
	Impact					
1.	Improved Governance and Administration	**1**	Improved institutional capacity	MoEPD, PRAZ MoFEDIP, SAZ ZRP, AG, ZIMRA, OPC, OAG, MoPSLSW, NPA	Advisory	NOUC 1 SOUC 1
	Programme 2: Energy Regulation					
	Impact					
2.	Safe energy delivery Reduced global warming		• Increased regulatory compliance. • Enhanced cost reflectivity of energy prices • Improved uptake of modern renewable energy and technological innovations • Increased energy efficiency	Attorney General, MOEPD, MoFEDIP, ZIMRA, RBZ, ZRP NPA, EMA, Local Authorities, CAAZ, NOIC	Legislative drafting, Policy direction, Border control, verification of imported energy products, Law enforcement, Prosecution, Environmental impact assessment, Siting of energy projects, Fire prevention	NOUC 1 SOUC 1

	Programme 3: Stakeholder Engagement & Advisory					
	Impact					
3.	Improved appreciation of energy issues	6	Improved Stakeholder Satisfaction	CCZ, Residents Associations, Ministry of Industry & Commerce, Media, CPC, (NACORA), CZI, ZNCC, CRAZ, COMZ, REAZ, IPAZ, MIAZ, PROBAZ, Farmer's Unions, MOMC, IPGZ, LPGSAZ, Parliament and licensees	Consumer Education & Awareness Publicity Consultation Advisory Resolution of public complaints	

SECTION C: STRATEGIES, ASSUMPTIONS AND RISKS

14. Strategies, assumptions, and risks

Period	Strategies	Assumptions	Risks	Mitigations
Programme 1: Governance and Administration				
Outcome 1: Improved Governance and Administration				
Budget Year - 2025	Implement the approved structure Decentralise operations Enrich Job design Regular and clear communication to staff Upscale rewards and recognition Capacity Building • Retooling and reskilling • Culture change Enhance performance management implement Work-life balance	• Board support • Adequate resources • Competitive remuneration • Skilled and competent human capital • Approval of structure • Non approval by approving authority •	• Failure to identify correct human capital needs. • Skills flight • Unethical behavior • Low productivity and failure to meet objectives • Disengaged employees • Knowledge gap	• Lobbying of a 50:50 staff cost to revenue ratio • Training programme dedicated to ZERA needs. • Competitive conditions of service, • Expansion of revenue base • Strong ethical structure and framework • Comprehensive talent management analysis • Skills development •

Period	Strategies	Assumptions	Risks	Mitigations
	Develop leadership and management competencies			
	submission of mandatory reports on time Automate report processes Adoption of ESG reporting framework	• Quality and accurate reports • Availability of information • Functional SAP • Competent employees •	• Noncompliance with applicable laws and procedures • Technological challenges • Weak system of internal controls	• Legal coaching clinics • User upskilling • Enhance ZERA internal systems
	Effective financial management	• Timely revenue inflows • Expenditure within budget • Stable macro-economic environment	• Unexpected price increases • Exchange rate fluctuation, High interest rates and inflation	• Enforce payment terms and plans • Approved revenue model which responds to positively to changes in market forces. • Cost containment • Annual value for money procurement
	Enhance compliance with the Public Entities Corporate Governance Act (PECOGA) [Chapter 10:21]	• Awareness of PECOGA	Risk of litigation, prosecution, or penalties due to non-compliance. Unethical behavior	• Conduct regular internal stakeholders' awareness programs. • Lobbying

Period	Strategies	Assumptions	Risks	Mitigations
	Strengthen Board effectiveness	• Availability of a Board continuous development plan • Availability of an approved Board Calendar. • Adherence to the Board evaluation Framework	• Competing schedules • Delayed submission of Board and committee reports • Lack of Stakeholder confidence. • Information asymmetry	• Adherence to Board Calendar • Online meetings • Engagement with management • Automation of business processes

Period	Strategies	Assumptions	Risks	Mitigations
Programme 2: Energy Regulation				
Outcome 2: Increased regulatory compliance				
Budget Year - 2025	Review Petroleum Act Transportation, construction and storage • Redefine petroleum products • Upstream petroleum and gas activities • Penalty regime enhancement Review Electricity Act (oversee workmanship and Energy Efficiency activities) Review of ZWS970 (siting and safety of service station) Review electricity licencing thresholds	• Capacity to develop legislation, codes, and standards. • Concurrence from Ministry • Responsiveness from AG's office • Responsiveness of stakeholders	• Non-availability of relevant benchmark legislation, codes, and standards • Delays in promulgation of legislation • Lack of cooperation from stakeholders	• Continuous engagement • Stakeholder consultation • Benchmarking

	Enhance security of fuel supply (Buffer stock)	• Oil companies buy-in • Adequate financing	Logistical constraints	Review license conditions
	Increase enforcement • Decentralised operations • Engage more field staff • Streamline internal processes • Secure storage space for exhibits	• Adequate funding • Approval of the structure • ICT functionalities	• Interference by stakeholders • Internal resistance	• Stakeholders' engagement
Period	**Strategies**	**Assumptions**	**Risks**	**Mitigations**
	Enhance energy access in remote and rural areas.	• Adequate funding Alternative energy sources	• Poor viability (fuel) • Reduced grant funding Inappropriate tariffs (mini grids)	• Lobby for subsidies • Light handed regulation. Adopt mini-grid tariff model
	Promote local manufacture of LPG cylinders	Government support	• Lack of fiscal space • Cylinder quality	• Cylinder quality framework
	Promote clean cooking-gas.	Buy-in from stakeholders (cultural acceptance)	• Lack of knowledge of technologies • Non- affordability of equipment and clean energy	• Awareness and stakeholder engagement • Enhanced lifeline tariff • Lobby for tax exemption
Programme 2: Energy Regulation				
Outcome 3: Enhanced cost reflectivity of energy prices				
Budget Year 2025	Maintain cost-reflectivity of energy prices • Develop multi-year tariff determination framework • Review of petroleum pricing structure	• Availability of internal expertise to carry out the studies. • Adequate inputs/data from operators	Resistance from stakeholders	• Continuous engagement of stakeholders • Development of regulatory reporting manual
	Establish Regulatory accounting framework	Availability of funding	Buy in from stakeholders.	Raise awareness. Appoint consultant.

			Lack of skills to develop framework	Training of licensees and staff
	Recommend: • centralised fuel procurement framework • efficient electricity structure-revenue ring fencing	Government support	Resistance from stakeholders	Stakeholder engagement
Programme 2: Energy Regulation				
Outcome 4: Improved uptake of renewable energy and technological innovations				
Budget Year 2025	Review regulatory framework	• Internal capacity to develop legislation, codes and standards. • Support from Ministry and AG's Office	• Non-availability of relevant benchmark legislation, codes and standards • Delays in promulgation of legislation • Lack of cooperation from stakeholders	• Training of staff • Continuous engagement • Stakeholder consultation
	Lobby for RE products incentives: • Solar water heating	• Government support	• Proliferation of sub-standard products	• Stringent quality control measures
	Recommend Energy fund: • Production • Rural, gas access • Biomass • Infrastructure • Biofuels	• Government support	• Lack of stakeholder buy-in • Unavailability of funds. • Acceptance of modern energy sources in rural areas	• Engage stakeholders. • Access Green climate funds
	Lobby for competitive procurement of RE technologies	• Timeous completion of the procurement framework • NIERP completed	• Interference/Lack of co-operation from stakeholders	• Consultation and engagement of stakeholders
Programme 2: Energy Regulation				

Outcome 5: Increased energy efficiency				
Budget Year 2025	Energy efficiency Training	• Stakeholders buy-in • Availability of training materials • Localised skills	Expensive intervention measures	• Explore climate finance opportunities.
	Lobby for Energy Management Regulations and Minimum Energy Performance Standards for Appliances	Promulgation of regulations	• Inexperienced ESCOs • Resistance by stakeholders • Increased cost of appliances	• Stakeholder engagement • Training of Energy Efficiency professionals. • Establish funding mechanism • incentives
	Promoting efficient mobility: • CNG • Green Hydrogen • EV mobility	• Mature technologies and availability of expertise • Government support	Stakeholder resistance	Stakeholder awareness and training
	Promotion of waste to energy projects • Fund feasibility studies Promotion of gas for cooking	• Local Authorities support	• Stakeholder resistance	Stakeholder awareness and training

Programme 3: Stakeholder engagement & Advisory services				
Outcome 6: Improved stakeholder satisfaction				
Period	**Strategies**	**Assumptions**	**Risks**	**Mitigations**
Budget Year 2025	Carry out stakeholder engagement and advisory programs	Availability of resources	• Lack of stakeholder buy-in • Competing schedules	Prepare annual meetings programme and distribute timeously
	Carry out stakeholder/consumer education and awareness programs.	Availability of resources	• Lack of stakeholder buy-in • Lack of awareness of energy sector issues	• Continued stakeholder engagement and consultation. • Procure Mobile Office.
	Mediate & Resolve disputes	• Cooperation from parties to the dispute • Availability of enabling frameworks	• Unresolved disputes • Institutional reputation	Craft Regulations with Legal Recourse for Resolution.
	Sensitise consumer grouping and advocacy groups on the Consumer Protection Act	• Stakeholder awareness of the Act • Stakeholders buy-in	• Misalignment of ZERA frameworks with the CPA • Potential role duplication • Limited knowledge of the CPA	• Alignment of ZERA frameworks to CPA • Awareness campaigns • Internal capacity development
	Enhance media relations	Readiness of media to engage	Tarnishing corporate image	Sustained media engagement
	Uphold and strengthen corporate image	Authority is perceived indifferently.	• Tarnished image • Stakeholder dissociation	• Increased engagement in corporate visibility initiatives • Due diligence when partnering with other stakeholders. • Increased distribution of promotional material
	Enhance communication of ZERA's regulatory role and energy matters in the media	• Functional media strategy • Availability of energy topics of public interest • Misunderstood regulatory role	• Failure to communicate effectively. • Lack of stakeholder buy-in • Ill-informed stakeholders • ZERA irrelevance • Stakeholder Disengagement	• Incorporate media strategy in Annual Plan • Subject experts to be engaged consistently. • Value creation to the public.

	Develop inclusive informational educational communication material (IEC)	Adequate resources (translation services and financial)	• Unavailability of skills	Engagement of external expertise
	Ultimately become a good Corporate Citizen	Availability of resources to undertake CSR activities	• Lack of impact of CSR activities • Loss/distortion of message/ strategic thrust/intention	• Strategic identification • Impactful project proposals
	Sustained Legacy	Resource availability	• Misaligned objectives (dilemma)	Increase innovation in response to societal needs
	Align ZERA frameworks with the Consumer Protection Act	Knowledge of the Consumer Protection Act internally	• Failure to adhere to provisions of the Act. • Potential internal duplication of roles	• Internal capacity building • Enter into MOU with the Commission • Align ZERA frameworks. with the Consumer Protection Act
	Develop Consumer Protection Standard	Availability of benchmarks	• Resistance from energy suppliers and consumers • Noncompliance.	• Develop laws and regulations. • Involvement of consumers • Enforcement

SECTION D: MONITORING AND EVALUATION

15. M&E Plan

A. Evaluation Plan

a. Tittle of the Programme/Policy:

Governance and Administration

Energy Regulation

Stakeholder Engagement and Advisory Services

b. Year of last **Formative** evaluation: 2023

c. Details of **formative** evaluations carried out:

Year	Evaluation Issue Area	Findings	Actions Taken
2023	Programme 1 –	The Year to Date (YTD) performance for Programme 1 - Policy and Administration programme up to Quarter 3 2023 was 32.92% compared to the performance of Quarter 3 2022 which was 24.26%. This amounts to an increased year on year performance of 8.66%.	The programme will be renamed Policy and Governance in order to give more focus and compliance to governance issues in line with the Public Entities and Corporate Governance Act. The programme will continue to provide support services to the Authority.
2023	Programme 2 – Energy Regulation	The performance Programme 2 – Energy Regulation for current year up to Quarter 3 was 49.57% which is an improvement of 13.67% for the same period in 2022 which was 35.9%.	Based on the improved performance the Energy Regulation programme will upscale its activities in conducting compliance inspections, developing/reviewing standards/codes/regulations, conducting sector training, reviewing Electricity/IPP tariffs, fuel prices and licensing of energy players.
2023	Programme 3 – Stakeholder Engagement and Advisory Services	The Quarter 3 performance for Programme 3 – Stakeholder Engagement and Advisory Services up to Quarter 3 2023 was 29.4% which is 1.47% increase compared to the same period last year. The Quarter 3 2022 performance was 27.93%	The programme will continue focusing on its core mandate of stakeholder engagement and advisory services in order to enhance the Authority's footprint in energy regulation in Zimbabwe. This will be attained through increased stakeholder engagement, round table dialogue, carrying out consumer education and awareness programmes as well as improved resolution of public complaints.

d. Date/s of next summative evaluation/s: **December 2025**

e. Plan for next evaluations:

Year	Evaluation Issue Area	Major Issues/ Evaluation Questions/ Points	Data Requirements	Frequency/ Responsibility	Estimated Budget
2025	• Employee Engagement • Procurement • SAP	• Competence gap • Work life balance	Training budget	Yearly	Budget for evaluation in 2025
2025		Compliance inspections, developing/reviewing standards/codes/regulations, conducting sector training, reviewing Electricity/IPP tariffs and fuel prices and licensing,	ZERA 5 Year (2021-2025) Strategic Plan, Agency Strategic Performance Plan, CEO's Contract, Monthly and Quarterly reports	Yearly	ZIG 7,082,048,937
2025		Stakeholder Engagement and Advisory campaigns, round table dialogue, consumer education and awareness programmes and resolution of public complaints.	ZERA 5 Year (2021-2025) Strategic Plan, Agency Strategic Performance Plan, CEO's Contract, Monthly and Quarterly reports	Yearly	ZIG 3,194,767,995

B. Monitoring Plan-

Ref. & Results Category	Outcome Description	KPI[6]s	Baseline		Target	Variance	Data Source	MoV	Data Freq.	Instrument	Risks & Assumptions	Responsibility	Specific Budgetary needs ($/Other)	Reporting to/User
			Value	Yr										
Programme 1: Governance and Administration														
	Outcome 1													
	Improved institutional capacity	Client satisfaction index	60%	2021	65%	+-5%	Survey report	Consultancy TORs	Annually	Feedback from clients	Negative attitude against the organisation Availability of clients to respond	Communications	ZIG350,000	CEO

		Compliance level	100%	2021	100%	0	Compliance reports submitted	Submission to relevant Authorities	Monthly	Own data analysis	Challenges with SAP	Finance	BUEC	CEO
		Administrative efficiency index (turnaround time, employee benchmarking)	new	new	100%	0	Compliance reports submitted	Submission to relevant Authorities	Monthly	Own data analysis	Challenges with SAP	Finance	BUEC	CEO
Programme 2: Energy Regulation														
	Outcome 2													
	Increased regulatory compliance	Regulatory frameworks adherence (*pricing, safety, quality, licensing*)	100%	2021	75%	±10%	Frameworks developed	Management reports	monthly	memos, pricing communications	Changes in the Energy sector	Director Energy regulation	BUEC	CEO
	Outcome 3													
	Enhanced cost reflectivity of energy prices	Cost Reflective Energy Prices	100%	2019	100%	±5%	Reports to Government	Management reports	monthly	memos, pricing communications	Market forces	Director Energy Regulation	BUEC	CEO
		Good returns for IPP tariff	100%	2023	100%	+/-5%	Reports	Management reports	monthly	Letters	Market forces	Director Energy Regulation	BUEC	CEO
		ZETDC monthly indexation tariff	100%	2023	100%	+/-5%	Reports	Management reports	monthly	Letters	Market forces	Director Energy Regulation	BUEC	CEO
	Outcome 4													

[6] Including the definition, if required

Ref. & Results Category	Outcome Description	KPI⁶s	Baseline		Target	Variance	Data Source	MoV	Data Freq.	Instrument	Risks & Assumptions	Responsibility	Specific Budgetary needs ($/Other)	Reporting to/User
			Value	Yr										
	Improved uptake of modern renewable energy and technological innovations	Additional Mega Watts renewable energy	new	new	1%	±0.1%	Reports to Government	Project progress reports	monthly	memos, pricing communications	Lack of investors in the sector	Director Energy Regulation	USD300,000	CEO
		Additional LP Gas tonnage	new	new	1.3%	±0.13%	Reports to Government	Project progress reports	monthly	memos, pricing communications	Lack of investors in the sector	Director Energy Regulation	USD300,000	CEO
	Outcome 5													
	Increased energy efficiency	Megawatt hour saving	100%	2021	3	±0.3%	Reports to Government	Project progress reports	monthly	memos, pricing communications	Lack of investors in the sector	Director Energy Regulation	USD12,6m	CEO
	Outcome 6													
	Improved stakeholder satisfaction	Stakeholder Satisfaction Index (online survey)	84.05%	2023	85%	+-5%	Survey report	Consultancy TORs	Annually	Feedback from stakeholders	Negative attitude against the organisation Availability of clients to respond	Communications		CEO

Note:

1. Output monitoring plans are prepared and implemented at the Programme level, but not at the Ministry level. This is to avoid duplication.
2. The strategies that have been formulated by the Ministry will also be described in the Strategic Performance Plans (PSPP) of the Programmes.

Attachment 4: Technical Guidelines to complete Ministry Strategic Performance Plan (MSPP)

Technical Guidelines to Complete the MSPP

No.	MSPP Technical Guide
Section A: PROFILE OF THE MINISTRY/MDA	
1	Name of the Ministry/ MDA.
2	Insert the Ministry Vote No. Insert the Sector name and Code.
3	Vision of the Ministry/ MDA. * A vision statement is the Ministry's inspiration and framework of the Ministry strategic planning on how to become what the Ministry aspires to be in the future. A vision statement does not specify how the Ministry will get to the desired future state, but does set the direction for planning.
4	Mission of the Ministry/ MDA. *A mission statement can be defined as a formal, short, written statement of the purpose in life of the Ministry. It should guide the actions of the Ministry, spell out its overall improvement in the problem or need area, provide a sense of direction, and guide decision-making. It should provide the framework or context within which the Ministry's strategies are formulated.
5	5.a. Insert the National Priority Area(s) that the Ministry contributes to and insert the relevant National Thrust Area Code (s)
	5.b. Insert the National Key Results Area(s) (KRA) that the Ministry contributes to and insert the relevant national KRA Code (s).
	5.c. Insert the National Outcome(s) that the Ministry contributes to and insert the relevant National Outcome Code (s).
	5.d List the Sector and Sector outcomes contributed by the MDA.

No.	MSPP Technical Guide
	5.e. Insert the list of contributing partners. These include other MDAs/ agencies, institutions and development partners/donors etc..
6	List the Ministry Programmes and respective outcomes of the Programme. * Indicate the list of Core Programmes of the Ministry (as identified by reprogramming).
7	State the source of authority for setting up the Ministry/ MDA (i.e. the enactive legislation/Act which established the Ministry). *A key reference point would be the Gazette notification or relevant Act that describes the powers functions and provide authority to the Ministry. References to General Acts or Treasury Circulars are not valid.
8	Insert the title of the relevant policy mandate or Act, section and description which empowers the Ministry to operate. i.e. the Act(s) which empower the Ministry/ MDA to carry out its core functions or the Act(s) which the Ministry/ MDA is responsible to enforce.

No	Column No.	MSPP Technical Guide
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
9	**Description of Outcomes and Performance Targets of Ministry / MDA**	
	1	***Outcome: (Table 1)*** State the code and title of each Outcome. * Outcomes are the results that occur as a consequence of a programme's outputs. Outcomes may be short-term or long-term depending on the type of outputs that are produced and the nature of the problem and/or need being addressed. Outcomes at the Ministry/MDA level are identified using the results ladder and shall be approved by the PS. It is essential that the Outcomes be reflective of the needs/ problems of clients and stakeholders identified by the Ministry/MDA.
	2	***Reference to the programme Outcomes and Mandate/Jurisdiction*** Reference the Programme Outcome back to item 7***:*** Mandate / Jurisdiction.
	3	***Boundary Partners*** Indicate the other Ministries that are contributing to the same Outcomes as well as related National Outcome.
	4	***Contribution*** Indicate the estimated level of contribution made by the boundary partner to the Ministry outcome.
	5	***Reference to National Level of KRA*** Insert the KRA reference code of the Economic Planning Unit of MoFED (EPU) for which the Outcome stated above contributes to. Insert the EPU KRA reference code which will provide the linkage of the stated Outcome to the EPU KRA/Initiative that it relates to.
	6	***Reference to the National Level of Outcomes, KRAs and National Thrusts*** Insert the National reference code (of the National Programme, Outcome, KRA and National Thrusts) which the Ministry/MDA Outcome stated above is linked to.
	7	***Reference to the Program of Ministry/MDA***

No	Column No.	MSPP Technical Guide
		Insert the reference code of the Programme of the Ministry/ MDA which contributes to the Outcome stated above.

No	Column No.	MSPP Technical Guide
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
9	**1**	***Outcome: (Table 2)*** State the code and description of each Outcome. * Outcomes are the results that occur as a consequence of a programme's outputs. Outcomes may be short-term or long-term depending on the type of outputs that are produced and the nature of the problem and/or need being addressed.
	2	***Key Performance Indicator (KPI):*** Describe the KPI(s) for each of the Ministry/ MDA Outcome. *An Outcome may be measured by one or more KPIs. The number and scope of KPIs listed for each Ministry Outcome should be based on relevance and reliability. A proper KPI serves to define and measure the progress towards the Ministry/ MDA's expected performance in outcomes. KPIs should be quantifiable, agreed upon and reflective of the Ministry/ MDA's critical success factors and level of performance in achieving outcomes. KPIs differ from outcome to outcome of the Ministry/ MDA.
	3	***Baseline Year*** Insert the year which the Ministry/ MDA will use as a comparison basis in relation to the stated KPI. *A base year is the year used for comparison for the level of a particular performance/ economic index. The arbitrary level of 100 is usually selected so that percentage changes (either rising or falling) can be easily depicted. New, more up-to-date base years are periodically introduced to keep data current in a particular index.
	3	***Performance at the Baseline Year (Baseline)***

		Insert the actual performance level achieved in the baseline year stated above. * The baseline performance level could be measured in terms of a percentage, ratio, absolute figure or any other meaningful form of measurement. The source of the data needs to be quoted when completing this field. This will be used as a baseline performance level for the Ministry to compare its level of progress in achieving the KPI in a particular year against the baseline year and performance.
	4	***Performance Targets for the Planned Period (Generally 3 to 5 years)*** State the planned achievement of the KPI for the planned period (E.g. 2020 – 2023). *This will assist the Ministry in setting the yearly target to achieve the projected results of the relevant planned period, in this instance development plan only covers up to 2020, but the Ministry can always consider longer time horizon than this in its development planning. (E.g. Five-year development plan of the Ministry of Education). The Ministry be able to justify the target set.
No	**Column No.**	**MSPP Technical Guide**
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
9	**1 & 5**	***Planned Variance*** State the acceptable variance range within which the actual achievement of the stated KPI may deviate from the targeted level of achievement for the planning period, previous and current year. *Planned variance is an agreed range of deviation from a performance target of r a KPI. This range shall be discussed and agreed upon between the Ministry and the MoFED (Budget Review Officer (BRO). For e.g., The planned variance i.e. acceptable variance range could be set at +/- 5% of the planned performance target of 80-85% literacy rate in rural areas.
	1, 5 to 9	***Actual Performance*** State the actual level of performance achievement of the stated KPI for the previous year.
		Actual Variance (unit)/ (%) State the actual variance in terms of unit and/or percentage for the previous year. * Actual Variance is calculated as follows: *In units: Actual Achievement – Targeted Achievement* *In percentage: (Actual Achievement – Targeted Achievement)/ Targeted Achievement x 100*

		Tolerance level (limit) State the level of tolerance (minimum level of achievement) of the stated KPI for the planning period (2020-2023), previous and current year. * Tolerance level refers to the minimum threshold where an actual achievement below such threshold will trigger urgent remedial action by the Ministry. There could be cases e.g. training classes where tolerance level is at maximum threshold level where over-capacity can result in under performance. The tolerance level shall be discussed and agreed upon between the Ministry and MoFED (Budget Review Officer - BRO).

No	Column No.	MSPP Technical Guide
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
10	**Description and Target Output Performance of Ministry / MDA**	

	1 & 2	***Outputs of the Ministry / MDA*** Insert the code and description of the Ministry/ MDA's Output/s. * Outputs are results associated with programs and activities for which management assumes direct and immediate responsibility. Outputs can be distinguished in terms of Process Outputs and Programme Outputs. • Process Outputs - The Outputs produced by a set of activities or processes *e.g. number of training workshops completed.* • Programme Outputs: The final Outputs that were intended to be produced by the programme *e.g. knowledge and skills gained by the participants.* Program outputs may be more directly relevant to the achievement of desired outcomes. When designing performance indicators for outputs, budget analysts and programme managers need to ask and answer the following questions: • Are the services being delivered according to our expectations? • Are the services being delivered at an acceptable cost? • Are the services being delivered within a reasonable time frame? • Do the services meet the given standard? Hence, specify the Programme Output KPI in terms of Quality, Quantity, Timeliness and Cost. E.g.: • Number of Programme Outputs produced • Number of Programme Output produced according to specifications (Quality Measures) • Number of Programme Output produced within set timeframe • Cost per unit of Programme Output ***E.g. Quantity of Outputs Produced (Qt)*** State the quantity of Outputs produced for the previous year, current year, Budget Years 1 and 2 and Year 3. * This may be measured as a percentage or in absolute terms. However, the use of appropriate measure is encouraged (whether percentage, quantity or both) as it should present the actual illustration of the percentage of the completed workload. Example: • *Level of households that have access to safe drinking water or Level of households that have access to electricity - % may be appropriate* • *Number of Students who have completed the exams with minimum requirements for passing – Both number and % may be appropriate* • *Number of patients treated – Number may be appropriate*

		Performance indicators for outputs can be set according to the following four criteria: **Quantity:** quantity indicators describe performance in terms of how much or how many. It requires a unit of measurement such as numbers, kilometres, litres, etc. Examples include: number of students completing training per year; number of immunisations given; number of kilometres of roads constructed. **Quality:** quality indicators reflect service standards. They are based on customer needs, customer satisfaction, access and other issues. Examples include: number of customer complaints/compliments filed; percentage of accuracy for information entered into a database. **Timeliness:** timeliness measures provide a limit for how often, or within what time frame goods or services will be delivered. Timeliness is measured by turnaround times, waiting or response times. Examples include: number of students completing basic education within 9 years; proportion of case reviews conducted by due date; percentage of responses answered within a given time line. **Cost:** cost indicators reflect the cost of delivering the service. These indicators are expressed as a cost per unit of quantity. Examples include: cost per vaccination given; total cost of an awareness campaign. MDA senior management and MoFED officials may use the checklist below to assess whether the performance indicators that have been defined are the most appropriate for each programme and sub-programme. **A Checklist for Assessing Performance Indicators** (see table below)
	3	***Reference to the Outcome/s of the Ministry*** Reference/list here all Ministry/ MDA outcomes that the Output stated above is contributing to.

A Checklist for Assessing Performance Indicators

	Yes	*No*
Is the indicator valid? Does it measure what it purposed to measure?		
Is the indicator clear? Will users (Those collecting data) interpret the indicator in the same way?		
Is the indicator practical? Will it be easy to collect /available and analyse data? Will data collection be affordable?		
Is it comparable? Is it similar to what other organizations or areas in your organization already measure?		
Are the indicators consistent over time?		
Is it useful for the management information purposes?		
Will the indicators help with decision-making regarding service delivery?		

	4	***Reference to the Programme of the Ministry/MDA*** Provide the reference to programs that the Output is belongs to.
No	**Column No.**	**MSPP Technical Guide**
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
10	**Description and Target Output Performance of Ministry / MDA**	
	5	***Targeted Level of Performance*** State the targeted achievement of Programme Output for the planned period (2020-2023).
	6	***Targeted Performance of the Previous year and the current year*** Input the agreed/ targeted Programme Output for the previous and current year. * This could be expressed as a range in terms of percentage or unit. All Programme Outputs need to be planned and KPIs identified based on the following four attributes, i.e. Quantity, Quality, Timeliness and Cost.
	7	***Proposed level of Variance*** State the proposed variance of the Output performance for the current year and the planning period, i.e. Budget Years 1 and 2 and Year 3.
	8	***Actual achievement for the previous year*** Input the actual level of performance/achievement of the stated Programme Output for the previous year.
	9	***Actual Variance*** Calculate the difference between the Agreed Programme Output Target and Actual Programme Output Achievement for the previous year. * This could be expressed in terms of percentage or unit as follows: *In unit: Actual Output – Targeted Output; or* *In percentage: (Actual Output – Targeted Output)/ Targeted Output x 100*

No	Column No.	MSPP Technical Guide
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
11	**Financial Resources for the Ministry / MDA**	
	1	***Programmes of the Ministry/MDA*** List the programmes under the Ministry/MDA.
	2	***Outcomes of the MDA*** List the outcomes of the Ministry/MDA. Also indicate the outcome reference.
	3, 7, 12, 13, 14, 18	***Budget Requirements*** – *Estimated for the future years/ planned period* State the funding requirements for delivering each of the outputs at the targeted level of performance, in order to achieve the outcomes of each of the Programme for the planning period, i.e. Budget Years 1 and 2 and Year 3…. etc., as well as the budget for the current year and the previous year.
	11, 15, 18, 20	***Planned Variances*** State the proposed levels of variance of spending the planning period, budget Year 2 to and Year 3, etc.
	12, 17, 19	***Approved Original Provision*** Indicate the original amount of allocation approved for the stated programme for the previous and current year.
	8	***Additional Provisions*** Indicate the additional allocation for the stated programme (if any), one-off or virement for the previous and current year.
	8	***Reductions from the Original Allocations*** Input the amount of allocation reduced by MoFED or virement out for the stated programme (if any) for the previous and current year.
11	**4, 9**	***Amended Budget / Allocation*** Indicate the revised allocation / budget provided to the Ministry for the previous and current year. * Calculated as: Original Allocation + Addition/ Reduction in Allocation = Revised Allocation.
	5, 10	***Actual Expenditure*** Input the actual spending for the stated programme for the previous year.

No	Column No.	MSPP Technical Guide
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
	6	***Difference between Actual Expenditure and Revised Allocation/Budget*** Indicate the actual variance between actual amount allocated (after revisions) and the actual amount utilized/spent in terms of value (Zim $) and as a percentage for the previous year. * Calculated as follows: In $: Revised Budget – Actual Expenditure In percentage: (Revised Budget – Actual Expenditure)/ Revised Budget x 100
12	**Resources: Human Resources** ***Establishment***	
	1	***Number of Positions / Cadre*** Input the total number of posts required/ estimated for the Ministry and each of its Programmes in the previous year, current year, planned years according to the following categories: i. *Administration and Secretarial staff* ii. *Top Management Staff* iii. *Management and professional staff* iv. *Support staff*
	2 & 3	***Filled and Vacant Posts*** Input the total number of posts filled for the Ministry and each of its Programmes in the previous and current year for the following categories: i. *Administration and Secretarial staff* ii. *Top Management Staff* iii. *Management and professional staff* iv. *Support staff*

No.	Column No.	MSPP Technical Guide
SECTION B: PERFORMANCE PLAN OF THE MINISTRY/MDA		
13	Outcome Hierarchy Analysis The Outcomes Hierarchy Analysis produces the Outcome Hierarchy Diagram or Chart which depicts the different level of results achieved in a logical consequential manner by an intervention programme. The outcomes that should be achieved by the programme in relation to needs and problems of its clients and beneficiaries are identified as Preliminary Outcomes. The Programme is accountable in achieving these outcomes. The Outcomes that are followed immediately after the preliminary outcomes are the Intermediate Outcomes and the outcomes that are followed by the intermediate outcomes are identified as the Tertiary Outcomes. These hierarchy of results at various levels are depicted in the Outcome Hierarchy. The highest level of this logical sequence identifies the ultimate impact though desired by the Programme but is influenced by many other programme results and external factors. Impact is typically a shared result contributed to by one or more outcomes arising from one or more programs. Impact may be long or medium term but not necessarily. It is more of a follow-through consequence of one or more outcomes rather than strictly time-bound.	
	1	***Preliminary Outcomes of the Programme*** State the Preliminary Programme Outcomes (from *Table 12: Programme Performance Planning - Programme Outcomes*) to be achieved by the Programme
	2	***Intermediate and Tertiary Outcomes*** Describe the Intermediate and Tertiary Programme Outcomes resulting from the stated Preliminary Programme Outcomes.
	3	***Impacts of the Programme*** Describe the ultimate follow-through impact that is desired through the achievement of the Preliminary, Intermediate and Tertiary Outcomes.

No	Column No.	MSPP Technical Guide
SECTION C: ANALYSIS OF NEGATIVE IMPACTS AND CHALLENGES OF THE MINISTRY/ MDA		
14	**Analysis of Negative Impacts**	
	1	***Outcome of the Ministry / MDA*** Insert the Outcome of the Ministry/ MDA (derived from the Outcomes listed in *Section 9: Performance Plan of the Ministry/MDA*) which could lead to influencing for negative impact(s). *(E.g. Increased international tourists' arrivals could lead into increased drugs circulation and increased STD incidences)*
	2	***Description of envisaged Negative Impact/s*** Describe the anticipated negative impact/s of the Outcome stated above.
	3	***Mitigation Actions by the Ministries*** Describe the steps that the Ministry as well as other Ministries could take to mitigate the potential negative impact identified above. * The Ministry should endeavour to have mitigation / action plan(s) to alleviate the negative impact arising from the Ministry's Outcomes. The Ministry is encouraged to do this in collaboration with the affected Ministries. *(E.g. Increased drugs circulation – Ministry of Home Affairs, Ministry of Health and increased STD incidences – Ministry of Health, Ministry of Education, Ministry of Tourism)* * The Ministry/ MDA is encouraged to collaborate with other ministries/ agencies in addressing the stated challenges.
	4	***Programme/s which would be taking mitigatory actions to minimize the negative impacts*** Indicate the list of programmes both within and outside the Ministry/ MDA that could potentially be affected by the negative impact/s identified above.
	5	***Boundary Partners*** The Ministry/ MDA is encouraged to collaborate with other Ministries/ Agencies in addressing the stated challenges. These Ministries and Agencies are identified as boundary partners

No	Column No.	MSPP Technical Guide
SECTION C: ANALYSIS OF NEGATIVE IMPACTS AND CHALLENGES OF THE MINISTRY/ MDA		
15	**Risks and Challenges**	
	1	***Outcome of the Ministry/MDA*** Insert the Outcome of the Ministry/ MDA (derived from the Outcomes listed in *Table 7: Performance Plan of the Ministry/ MDA*) which is envisaged to face challenges and the risks.
	2	***Challenges and risks of the Ministry / MDA in Achieving above Outcome*** State the challenges, limitations and risks encountered by the Ministry/ MDA which could hinder the achievement of the Outcomes listed above. * These could be political, environmental, administrative and/or operational in nature. *Risks are the factors that could negatively affect achievement of results, that may or may not happen (less likely to happen) and beyond direct control of the project.*
	3	***Proposed actions for above challenges and risks*** Describe the steps that the Ministry/ MDA could take to overcome the foreseeable challenges and identified risks. * The Ministry/ MDA should endeavour to develop mitigation / action plan(s) to overcome the foreseen challenges and identified risks which could prevent the Ministry from achieving its Outcomes.
	4	***Programmes that are involved in undertaking the mitigatory actions*** Insert the programme/s and activity/ies within and/or outside the Ministry/ MDA that are involved and could be engaged in addressing the identified challenges. * The Ministry/ MDA is encouraged to collaborate with other ministries/ agencies in addressing the stated challenges.
	5	***Boundary Partners*** The Ministry/ MDA is encouraged to collaborate with other Ministries/ Agencies in addressing the stated challenges. These Ministries and Agencies are identified as boundary partners

No.	MSPP Technical Guide
SECTION D: POLICY EVALUATION PLAN	
16	***a. Evaluation Plan of the Programme*** State the evaluation plan for the stated Programme based on the listed requirements as set below: • *Policy* commencement year – Insert the year the Policy was started. • *Last year of Evaluation* – Insert the year the stated Policy was last evaluated. • *Year in which next evaluation is planned* – Insert the year for the next planned evaluation of the stated Policy to be carried. • *Issues/Areas to be addressed by the next evaluation* – State the issues or elements of the stated Policy be evaluated. • *Evaluation questions* – State a summary of questions to be covered raised in the planned evaluation. * The Policy Evaluation Plan is a plan for the evaluations that will report on a Ministry/ MDA's Policies during a five-year period. The Government's evaluation strategy under the IRBM/RBB system requires each Policy in each Ministry/MDA to be evaluated at least once in five years. The Policy Evaluation Plan includes details of activities to be evaluated, the timing, and information about the possible evaluation issues and questions that will be addressed by the evaluations. This plan ensures that all Policies or major parts of Policies are evaluated at least once within a five-year period. Ministry top management may organise additional policy evaluations as required to improve products and services and to meet other accountability requirements.

No	Column No.	MSPP Technical Guide
SECTION D: POLICY EVALUATION PLAN		
16	***b.* M&E Planning**	
	1 & 2	***Key Performance Indicator (KPI)*** State the Ministry Outcomes and applicable KPI(s) for each of the Outcomes. Discussed under Performance Planning – Section 9 above.
	3	***Base Year*** Insert the year which the Ministry will use as a comparison basis in relation to the stated KPI. Discussed under Performance Planning – Section 9 above.
	3	***Baseline (Performance of the Base Year)*** Insert the actual performance level achieved in the baseline year stated above. Discussed under Performance Planning – Section 9 above.
	4	***Target*** Insert the targeted performance levels for planned year. Discussed under Performance Planning – Section 9 above.
	5	***Variance*** Insert the planned variance for the targeted performance levels. Discussed under Performance Planning – Section 9 above.
	6	***Source of Data*** Specify the source from which the data for the KPI will be obtained.
	7	***Means of Verification*** Specify how the Ministry/ Agency can verify the data source(s) stated above. Verification needs to be done to check for data validity and reliability and often it is being carried by a technical person, a group of knowledgeable and experienced people, a panel of experts, or an independent third party.
	8	***Data Frequency*** Indicate the data frequency of each of the KPIs. The data frequency refers to the intervals in which the data for KPIs are obtained. There are some data which needs to be collected monthly, some on quarterly basis, and some bi-annually and annually. For each of the KPI, the data frequency would be indicated so that the implementers and M&E officials will know when such data should be gathered, analysed and presented.

<table>
<tr><th>No</th><th>Column No.</th><th>PSPP Technical Guide</th></tr>
<tr><td colspan="3">SECTION D: POLICY EVALUATION PLAN</td></tr>
<tr><td>16</td><td colspan="2">b. M&E Planning</td></tr>
<tr><td></td><td>9</td><td>Instrumentation

Instrumentation refers to the modes and mechanisms by which the data could be obtained. This is different to the sources of data. Sources of data refer to where the data could be obtained whereas instrumentation refers to how the data could be obtained. There are many common ways of obtaining data for KPIs. Though there are internally generated data, often the Ministries will have to use external data as well. It is important that the Ministries identify the specific data instrumentations since it will provide clear guidance to the staff as to how the planned and required data could be obtained.

There are many common data collection mechanisms. These include the following.

• Literature review (review of published data-mostly external)
• Review of internal documents, reports and publications
• Own data analysis (Ministry data analysis)
• Management reports, minutes and memos
• Key informant interviews / one to one meeting /s
• Focus group discussions and stakeholder meetings
• Telephone interviews
• Feedback from clients and stakeholders (in various ways: Complaints, suggestions, complements, mail replies and letters etc.)
• Questionnaire surveys
• Compass workshops
• Inspections, observations and site / field visits</td></tr>
<tr><td></td><td>10</td><td>Risks & Assumptions

This analysis is focused on M&E activity but not in relation to achievement of intended results (outcomes/outputs). Risks refer to the factors that are beyond the control of implementers (e.g. Ministries), which are less likely to happen and affects negatively for successful implementation of M&E plan and collection of required data. Hence, the risk factors that are addressed here are those which are beyond the control of Ministries and affects negatively for producing appropriate, accurate and reliable data on timely basis for the purposes of M&E.</td></tr>
</table>

		Hence, the risks that affect the reliability and accuracy of data and factors that might delay the process of informed decision making need to be identified and described in PSSP, so that the implementers (Ministries) could take appropriate measures to mitigate such risks and minimise the negative impact if any, in having accurate M&E data.

No	Column No.	PSPP Technical Guide
SECTION D: POLICY EVALUATION PLAN		
16	**b. M&E Planning**	
	11	***Responsibility*** The responsibility refers to the party who has the duty and obligation to deal with it. It could be due to the role and/or part of the functions of the job. Most of the M&E functions are the responsibility of the heads of sections/divisions. For some, it is the collective responsibility of committees and teams.
	12	***Budget*** Specific budgetary needs for collection of data for identified KPIs are indicated here. It is the responsibility of head of M&E and the head of the Project to ensure that these budgetary needs are included in the annual budget. *It is not necessary to allocate the common cost of M&E unit and other M&E functions to be allocated to each of the data requirements under KPIs and indicate in this Table.*
	13	**Reporting to /User:** State the person who needs to be reported with the monitoring data that were collected and analysed. Responsible officer should ensure that this officer received the monitoring data.
N/A	**Cross-cutting issues to be considered and included in the MSPPs.**	The following cross-cutting issues to be considered and included in the MSPPs. 1. Disaster preparedness 2. Employment creation 3. Environmental sustainability 4. Gender and development 5. Governance 6. HIV and AIDS 7. Human Capital Development 8. Information and Communication Technology 9. Poverty Eradication/Pro-Poor Interventions 10. Partnerships 11. Regional Development 12. Rural Development 13. Research & Development 14. Marginalized & vulnerable groups integration
